Objective

Aspiring Full-Stack Developer with strong problem-solving skills and hands-on experience in blockchain development, DSA, and responsive web applications. Seeking to contribute to innovative projects and grow in a collaborative software engineering role.

Technical Skills

- Languages: Java, JavaScript, SQL (MySQL), HTML/CSS
- Frameworks & Tools: React.js, Solidity, Web3.js, Ganache, MetaMask, Git
- Core Concepts: Data Structures & Algorithms, Object-Oriented Programming, Operating Systems, Computer Networks
- Soft Skills: Problem-solving, Communication, Adaptability, Quick Learning

Education

NMAM Institute of Technology, Nitte, Karnataka	Expected: 2026
Bachelor of Technology in Information Science & Engineering — CGPA: 7.9	
Dr. T.M.A Pai Polytechnic, Manipal, Karnataka	2016
Diploma in Electronics & Communication Engineering — 74.04%	

Projects

Decentralized Ride-Sharing App (Jan 2024 – Feb 2024)

Full-stack Blockchain Application

- Developed a ride-sharing platform using Ethereum blockchain.
- Wrote smart contracts in Solidity for ride requests, driver assignments, and secure payments.
- Built React.js frontend integrated with Web3.js for real-time blockchain interactions.
- Simulated blockchain environment using Ganache for testing and deployment.
- Integrated MetaMask for secure user authentication and wallet management.

Tourism Website for Udupi & Mangalore (Feb 2025 – May 2025)

Responsive Web Application

- Designed and developed a tourism website showcasing attractions, cultural highlights, and travel guides.
- Built interactive pages with HTML, CSS, and JavaScript for dynamic content and improved UX.
- Implemented responsive layouts ensuring cross-device compatibility.
- Enhanced engagement with image galleries, maps, and user-friendly navigation.

Work Experience

Dhofar Food Processing Company, Oman & Janatha Interfish, Mauritania

Operation and Maintenance Engineer (Dec 2017 – June 2022)

- Led preventive and corrective maintenance for high-capacity machinery.
- Collaborated with cross-functional teams to optimize equipment uptime.
- Documented technical procedures, contributing to operational efficiency.
- Developed strong problem-solving and analytical skills transferable to software engineering.

Certifications & Training

- Web Development (Full-Stack MERN) — Apna College (Ongoing)
- Completed 30-Day LeetCode Challenge — 120+ problems solved in DSA
